
BRANDIE MONAE

PROFESSIONAL MAKEUP ARTIST

BRANDIE

Ms. Monae isn't your standard MUA. Her love of makeup comes from watching her grandmother and mother powder their noses when she was younger. After obtaining her undergraduate degree in Public Health she started a career in banking which lasted for ten years. She enjoyed the corporate world to the point that she decided she needed to go back to school and acquire her MBA.

Although Brandie loved corporate America there was something pulling her away. With some spiritual nudging Brandie, stepped out on faith and began her business as a professional makeup artist. To hone her skills, Brandie began working at various makeup counters. She also researched and sampled an array of products to enhance her client's experience. Within one year, Brandie's work has been featured on red carpets, world renowned conference stages and in global publications. She has also had the opportunity to work for celebrity clients such as April Ryan, Bishop T.D. Jakes and First Lady Serita Jakes and Dorinda Clark Cole.

Brandie says her main audience is the professional woman because they're on a mission and so is she. Brandie, is focused on helping you enhance the beauty God has given, you. If you'd like an honest, professional, results driven artist, Brandie is the MUA for you.
